**Background**

Background info/experience

Mr. Martino is a driven, results-oriented, and entrepreneurial logistics and operations leader who has demonstrated success in the logistics field, with over 6 years' experience, utilizing unique problem-solving solutions to maximize resources and streamline operations. Mr. Martino has strong operational planning, development, data analysis, and continuous improvement skills. He leverages innovative and proactive approaches to problems-solving and process improvement/development for cost savings, and workflow optimization in rapidly changing environments, and is adept in communicating with internal/external groups for on-time completion and delivery.

**Work History and Professional Accomplishments**

<b>Consultant - Logistics Management Specialist</b>	Cobec Consulting, Washington, DC	<b>2019/05 - Present</b> 1 Yrs, 7 Mos
-----------------------------------------------------	-------------------------------------	------------------------------------------

Mr. Martino works for the Terminal Automation Modernization and Replacement (TAMR) Program Office in the process of implementing the Standard Terminal Automation Replacement System (STARS). Mr. Martino is responsible for managing the shipments and inventory, of government furnished equipment (GFE), for the Implementation team. His duties include managing GFE orders, 4650-12 or material requisition documentation, return materials authorization (RMA) for damaged parts, inventory updates, database management for inventory, 4650-12s, GFE orders, and damaged parts, and Tableau dashboard development. Mr. Martino has successfully created two dashboards, F & E Inventory and Order Status and Repaired / Deployed (Failure analysis), to track and monitor parts managed by the project.

<b>Consultant – Data Migration Support</b>	Cobec Consulting, Washington, DC	<b>2020/06 - Present</b> 0 Yrs, 5 Mos
--------------------------------------------	-------------------------------------	------------------------------------------

Mr. Martino works with baseline owners / Second Level Engineering to collect existing system and part-level data for each configuration item (CI) or system. This data is then added to a template to be verified and updated to be migrated to the new configuration management IFS.

<b>Logistics Manager SAP Processes</b>	Lidl US, Arlington, VA	<b>2016/11 - 2019/05</b> 2 Yrs, 6 Mos
----------------------------------------	---------------------------	------------------------------------------

Mr. Martino maintained and monitored outbound deliveries from warehouse. He controlled centralized operations of selections process for entire warehouse. Mr. Martino distributed workload and managed

orders for the warehouse. Mr. Martino also directed execution of picking activities in all areas of warehouse while using SAP BW reports and EWM to make strategic decisions for outbound processes, manage KPIs, and control the Order Delivery Cycle for all stores in the country.

Mr. Martino reduced costs by creating innovative resolutions for complex selections issues and transport topics such as the implementation of case picking milk which saved \$131,000 per year. He has created solutions to promote productivity and order management, such as the reduction of travel paths, trained optimal picking techniques, and system updates. Mr. Martino is an expert in EWM outbound processes for the organization and has led the rollout of process and solutions for the organization to include projects of case calculation, top-up articles, piece picking, buffer reduction, and bulk optimization.

<b>Executive Team Leader of Logistics</b>	Target Corporation, Mechanicsburg, PA	<b>2014/06 - 2016/10</b> 2 Yrs, 4 Mos
-------------------------------------------	------------------------------------------	------------------------------------------

Mr. Martino managed two logistics team leaders and 50-70 team members. He monitored receiving tasks, freight flow, and productivity standards and coordinated basic operations at the store level through flow and backroom teams. Mr. Martino promoted and oversaw sales strategies created by the corporation. He recruited and trained team members to execute and complete logistics functions and conducted interviews for team members and team leaders. While in this position, Mr. Martino repaired a broken logistic process, produced green / positive results, and he executed business solutions to support and maintain the logistics function. Mr. Martino also implemented and launched Ship from Store a new operational process for the company.

<b>Web Assistance – Graduate Assistantship</b>	Shippensburg University, Shippensburg, PA	<b>2013/07 - 2014/06</b> 1 Yrs, 0 Mos
------------------------------------------------	----------------------------------------------	------------------------------------------

Mr. Martino performed web development duties as required for the Ektron CMS (Content Management System) and portal environments. He provided hands-on insight and assisted in creating solutions for arising technology issues. He conducted end-user testing and preformed front-end development using the CMS, HTML, CSS, SQL, and Visual Basic coding languages.

<b>Intermodal Rail Manager</b>	Intermodal Services of America, Harrisburg, PA	<b>2012/07 - 2013/07</b> 1 Yrs, 0 Mos
--------------------------------	---------------------------------------------------	------------------------------------------

Mr. Martino managed a crew consisting of 10-25 employees. He monitored the loading rate and unloading operations, and placed employees into crews or teams based on talent levels to execute timely loading and unloading of trains. He also partnered with foremen to create the best strategies for loading and unloading procedures. While working for this company, Mr. Martino regularly had the highest lift counts on the yard and had a record setting shift during his employment.

<b>Non-related Employment</b>		<b>2012/10 - 2005/01</b> 7 Yrs, 8 Mos
-------------------------------	--	------------------------------------------

Mr. Martino held non-related employment during this time.
